kolb digital gmbh

censhare2SAP Commerce Connector

- Direct and automatic linking of images and documents (e.g. PDFs) in censhare with products and variants in SAP Commerce

- Realtime communication between censhare and SAP Commerce

- A new widget is integrated into the defined asset types in censhare, in which the article number of the product or variant from SAP Commerce can be entered

- Derivatives required for Responsive Design are provided directly by censhare to SAP Commerce

- The status of the synchronization is shown in censhare

- Simple and self-explanatory handling in censhare - no need for action in SAP Commerce

- The connector is based on the existing standard entities and can be easily extended
